# Findings

		status	recommendation	why
1	<b><u>WATER</u></b>	depends on village	<i>bathrooms, wells, + fish ponds</i> should all have nearby gardens!	essential for dry season
2	<b>manure</b>	~70%	encourage	build soil health
3	<b>mulching</b>	~<20%	encourage	important for dry season
4	<b>composting</b>	none	try if convenient	manure may be sufficient
	<b><u>transplanting NTFPs</u></b>	~<15%	test at ICC nursery, extend to villages	forest is rapidly disappearing
